Vol. 1.

EDMONTON, TUESDAY, JULY 19, 1910.

No. 168.

CROPS BENEFITED BY RAIN IN MANY PARTS OF ALTA.

Yield Is Increased and Farmers
Are Feeling Much
Better

STILL DRY IN THE SOUTH

Canadian Pacific Crop Reports
Show Conditions During
Past Week

The crop reports obtained by the C. P. R. from all over the province show a far better condition of affairs than was the case last week. Rain has been fairly general, especially in the northern half of the province, and in some parts bumper crops will be the result. The conditions south of Calgary are still very poor, and in certain localities the crop is almost a total failure.

The Crop Reports

Calgary, July 19.—The crop reports received by the Canadian Pacific Railway for the last week do not indicate much change in conditions. In some parts of the province rain fell and the outlook is good. In other parts the prospects are unsatisfactory.

The expected yield per acre at Olds is about, wheat 30, oats 40 and barley 35 and hay 12. Ten hours fall.
At Penhold most of the grain is looking good and at Red Deer the crops look splendid, 30 hours rain falling last week. The expected yield is, wheat 40, oats 50 and barley 35. At Haskett the expected yield is, wheat 35 and barley 47.

Sixty per cent of oats per acre is the expectation at Lacombe and barley forty.

Better Than Last Year

At Leduc it is expected the yield will be ten per cent better than last year. The prospects are splendid and the grain is heading out well. There were good rains last week.

At Strathmore the farmers expect to be cutting wheat by the middle of August and the crop will be good.

At Camrose the expected yield will be, wheat 20, oats 15, barley 30, with a ton and half of hay to the acre. At Oatton prospects are fair and at Havelock good.

Twenty-Five Bushels Yield

Last week was warm at Daysland and showers fell. The expected yield is, wheat 25, oats 40, barley 35, hay 16. At Sreene and Killam prospects are good and the crops are looking very fair.

The same conditions prevail at Sedgewick and Sunday and Tuesday's rain fell at the latter place last week. The expected yield is, wheat 30, oats 50 and barley 40.

At Gadsby the prospects are fair, the hay crop being uncertain. Twenty bushels of wheat and 40 of oats to the acre is expected.

No Rain, Poor Crops

Grain is not in the heat at Castor and a two-thirds crop is expected. At Alderside the outlook is fair, at Okotoks poor and at High River very poor. No rain fell in the latter districts and at High River 15 per cent of the oats will be harvested, 10 per cent of the wheat, 20 per cent of barley, 10 per cent of hay.

At Nanton, Staveland and Claresholm no rain fell and the failure of the crops is almost complete.

A hot, dry wind has been prevailing at Graman and 85 per cent of the crop is lost.

At Brockton fall wheat looks fair. What is good at Pincher Creek, but poor at Macleod.

The expected yield at Cowley is, wheat 20, oats 30, barley 25, hay 10, hay 14.

At Seven Persons the crop will be cut for feed for stock.

LIVERY STABLE A GAMBLING JOINT

Regina, July 18.—As a result of a police raid made late Sunday night on the Palace livery stable, in the Police court today, Philip Monk was sentenced to two months at hard labor for keeping a common gaming house, while several men were fined twenty dollars and costs each for frequenting the same.

UNITED FARMERS OF ALBERTA

The annual picnic of the East-Clover Bar, Clover Bar and Agricola Union will be held again this year at Hortonburgh on Wednesday, 20th inst., at 1 p.m. A baseball match, Artursson versus Agricola, and children's races will open the programme. A road race from East-Clover Bar school, house to the grounds (two miles) at 2.30. Flow of oratory from 3 to 4. Free supper from 4 to 6. Sports include 100 yards free for all, jumping (long, high, and pole), sack race, donkey race and other events too numerous to mention.

To conclude there will be a grand football match, East-Clover Bar versus Clover Bar at 8 p.m.

Various and valuable prizes are being donated by officials, merchants and friends.

REPORT OF WORK AT EXHIBITION

Directors of the Association Held
a Meeting of Importance
Last Night

The directors of the Exhibition Association held a meeting last evening. Present Campbell in the chair, and Mayor Lee and Commissioner Bonillon being present.

The subject of whitewashing the fencing around the grounds was discussed, and the matter left in the hands of the Commissioner. Mr. Bonillon will take charge of the correspondence regarding the construction of a siding from the G.T.P. main line to the exhibition grounds.

It was decided also to have a team for the use of the association.

The Work Already Done.

At the grounds the work is going ahead with all speed, and a report was handed in at the meeting last night. Work has been started on the main entrance, a parcel and a checking room has been erected, while provision is being made for an exhibit of bees making honey.

The director's and secretary's office is under construction, and two bandstands have just been completed. The paddock is finished, and the storage houses for hay and feed will be completed in the course of a few days.

Flag poles have been provided and each building will have two flag poles erected on it, one at each end.

Double shifts of men are now at work, and the grounds are beginning to look really well. The double shifts were found necessary in order to have everything in readiness for the opening day.

IS DR. H. CRIPPEN NOW IN MONTREAL?

Passenger Believed to Be the Alleged Murderer Arrived on Sunday

ACCOMPANIED BY WOMAN

Both Have Now Gone and No Trace of Them Can Be Found

Montreal, July 19.—Passenger talking with the description of Dr. H. H. Crippen sent out by the London police, who is wanted for the alleged murder of his wife, known on the stage as Belle Elmore, was on the White Star Dominion liner Megantic which arrived in Montreal on Sunday from Liverpool.

The Megantic left Liverpool on July 9, the day on which Dr. Crippen is supposed to have left England. Or so it is alleged here the passenger in question accompanied by a woman, hurriedly left the ship and took a cab and has not been seen since.

They were on the passenger list under assumed names. The ship's officer says there was no police examination at Father Point, so that if Dr. Crippen was on board, he has passed through the ports unnoticed. The woman accompanying Crippen is thought to be Ethel Leveque, Crippen's stenographer.

If you have been troubled with shoe trouble try a pair of Slaters' at Kelly and Moore's.

5,000 ARE OUT ON THE G.T.P.

Conductors and Trainmen Went on Strike Last Night Over
Whole System

NO ENGINEERS AFFECTED

Men Have Sent Out Petition Asking That Arbitration Board Be Appointed

Montreal, July 19.—A strike of all conductors and trainmen on the G.T.P. system went into effect last night at half past nine o'clock. The strike is the result of the failure to arrive at an amicable settlement between the men and President Hays. The committee representing the men has been in Montreal for some time negotiating with the company. The committee demand the adoption of a standard railway rate, but President Hays refused to agree to this demand.

Unanimous for Strike.

A strike vote was taken last night all over the system and the men were practically unanimous for a strike unless their demands were granted. The ultimatum of the men was made known to the president at a final conference today. But President Hays absolutely refused to grant their demand and a strike was called and went into effect last night.

Over four thousand men are involved in the strike. It involves all the members of the B.O.R.T. and G.R. which practically means all the men on both passenger and freight trains. Engineers and firemen are not involved, as they belong to different orders.

Nearly 5,000 Men are Out.

The closing of the shops is estimated will throw out of employment 2,700 men in Montreal, 500 in Toronto, 200 in London, 1,000 in Stratford and large numbers of others at centres in the United States. Petitions are being prepared and are being sent by the employers all over Canada to authorities asking that action be taken to break the strike.

The M. & M. Hill, that a board of arbitration may be secured to deal with the matter.

Grand Trunk telegraphers will not strike. This decision is the result of a conference held between President Hays and Vice-President Campbell of the Order of Railway Telegraphers, when it was agreed not to strike.

The declaration of war was expected by both sides and they have been quietly preparing for it. The Grand Trunk has for some time been arranging to get additional men to furnish crews and also to take all men available from the other services and put them on the trains as far as possible. A further factor in the dispute which will have a very wide effect, is the decision of the Grand Trunk Company to close all its shops at Montreal, Toronto, London, Stratford, Port Huron, Battle Creek, Peoria, Chicago, and all over the system pending the settlement of the dispute.

Thousands Will Be Idle

This will mean that many thousands of men in these cities will be thrown out of employment through no fault of their own, perhaps for an indefinite period. It is stated that this is not through any desire on the part of the Grand Trunk to hurt its employees, but because if they have so tremendous an industrial dispute to fight it will take all their available funds, and they will have to concentrate all their energies on this end of the matter, leaving as far as the shops as a secondary consideration.

Have Made Every Concession

It was intimated by President Hays that the company had gone as far as they possibly could in justice to the shareholders, and the men themselves in their offer to accept the award of the board of conciliation, and that further concessions were out of the question. Further, Mr. Hays was willing to submit to arbitration a binding order on each party, but this the men refused.

Men Have Large Funds

Vice-President "Murdock" of the Trainmen's Brotherhood, intimated tonight that all preparations for the strike had been made and that the International had a fund of \$2,000,000, while a strike fund of \$25,000

a month could easily be raised. He accused President Hays of the Grand Trunk of bad faith, declaring that he had not kept his agreement even regarding the acceptance of the board of conciliation's report, but had cut all arrangements had been made to pay the strikers \$20 per month for conductors and \$25 per month for members of the Trainmen's Brotherhood. In the meantime an effort has been made by the Central Vermont to secure mediation by the Interstate Commerce Commission of the United States.

Mediation of No Use

A message was tonight received by Mr. Murdock from Chairman Martin, of the commission, offering their services. A reply was sent to Mr. Murdock stating they were willing at all times to accept such mediation but that considering the attitude of the company they did not think it would be of any use.

Little Delay at Detroit

Detroit, Mich., July 19.—Local engineers and conductors employed on the Grand Trunk system struck at 8.30 last night. Assistant to the president of the system, A. B. Atwater, announced that passenger trains would likely run according to schedule, but that freight trains might be delayed.

Train Stalled

White River Junction.—The first through train on the Grand Trunk and Central Vermont systems to be held up as a result of the strike was stalled here this morning awaiting the efforts of the railway officials to secure a crew to carry it through to Montreal.

Windsor, Ont., July 19.—Not a wheel turned here after the strike order was received in the Grand Trunk yards.

London, Ont., July 19.—About 200 conductors and trainmen are out here. The closing of the shops has thrown out about 400 employees.

Stratford, Ont., July 19.—Fifteen hundred employees of the Grand Trunk shops are idle here as a result of the closing of the shops pending the settlement of the strike. About five hundred conductors, trainmen and others went on strike. All freight trains are cancelled.

TALK TO LONDON FROM NEW YORK

Telephone Cable of New Kind
May Be Laid in the Near Future

NOW ACROSS CHANNEL

London and Paris Will Be in Telephone Communication Soon

London, July 19.—Telephone communication between London and New York may be looked for before long if the new submarine cable recently laid across the English channel by the British post office answers expectations.

This cable which extends from Dover to Cape Gris Nez, is the first of its kind laid in tidal waters. The tests so far have given very satisfactory results. The new cross channel cable will be opened for public use between London and Paris as soon as the French government completes the connecting land lines.

Tests made lead to the belief that it will revolutionize telephonic communication between England and the continent of Europe and as improvements are effected, will bring speaking communication between London and New York within the bounds of possibility.

INSANE WOMAN SUICIDES

Was in Asylum for Manslaughter and Kills Herself

Mattewan, N.Y., July 19.—Louise De Messey, an inmate of the Mattewan asylum for the criminally insane was found dead in her room by an attendant last night. She had hanged herself from the transom with a towel.

The woman was 47 years old and was convicted in New York City in 1884 of manslaughter. She was first sent to Auburn prison, then sent here as insane.

Hamilton Watches—Jackson Bros.

MR. MACKENZIE IS MUCH BETTER

Doctors Now Have Hopes That the Member for Claresholm Will Recover

SIFTON GIVES INTERVIEW

Says That Bye-Election in Glenochien Will Be Held Very Shortly

Calgary, Alta., July 19.—News from Macleod is to the effect that Mr. Malcolm McKenzie passed a better day yesterday and the doctors have great hopes of his recovery, though it will be some time before he will be around again. When Mr. McKenzie is able to move he will go abroad at once for a considerable time.

McLean to Look After Riding

On account of his illness and during his absence Hon. Mr. McLean, of Lethbridge riding, will attend to the work of the constituency of Claresholm riding this week, and after that any communications regarding the business of the riding should be sent to Mr. McLean at Edmonton.

Elections Before Session

Premier Sifton was in Macleod to visit Mr. MacKenzie last week. While there in an interview he informed the Macleod Advertiser that there would be an election in the riding before the coming session of parliament.

JOSEPH MARTIN IS IN TORONTO

Expresses His Views on Political Situation—Is Dissatisfied With Liberal Party

Toronto, July 19.—Joseph Martin, M.P. for East St. Pancras Division, British House of Commons, arrived in Toronto yesterday from New York.

In discussing at some length the present outlook of British politics, Martin frankly admitted he was disappointed with the Liberal policy. The present Government, he said, was showing a regrettable lack of decision in conducting its campaign against the Lords veto, but now the entire situation was tied up by equivocation on the question. Questioned regarding the Budget, Martin said he thought terms of taxation were not understood by Canadians, otherwise they would be unanimous in expressing approval of it.

FIRST OF KINGS TO SAIL THE AIR

Brussels, July 19.—King Ferdinand of Bulgaria, today established the record of being the first monarch to go aloft in a lighter than air machine, when he went for a flight in a biplane with M. Delannoy at the aerodrome at Kiewitz. King Ferdinand was highly enthusiastic over the flight and decorated M. Delannoy with the order of St. Alexander.

CALGARY COUNCIL WANTS TO BAR 'EM

Bar What? Why, Those Pugilistic Pictures, of Course

Calgary, July 19.—Although as far as they can see at present the aldermen have not the power to prohibit the exhibition of the Jeffries-Johnson pictures in Calgary, they unanimously placed themselves on record last night at the council meeting as objecting to the perpetration of the fight in films, by passing the following resolution:

"That, in case city solicitor Moffat find the council has power to stop fight pictures being shown in the city, he should prepare a by-law calling for their prevention."

Protests have come from Thoms Underwood of the First Baptist Church and Rev. G. W. Kirby Central Methodist Church, that the pictures were "burial to the high moral tone of children."

Ash Bros.—Issuers of Marriage Licenses.

EARL GREY WILL MAKE FAST TRIP

Party Will Go Six Hundred Miles By Canoe in Ten Days

CALL AT NEWFOUNDLAND

His Excellency Will Make Official Visit on Governor of the Island

Ottawa, July 19.—Not only will Earl Grey be the first Governor-General of Canada to make the rugged overland trip across the country to Hudson Bay, but if the plans which are now being made at the Mounted Police Department do not miscarry, he will probably achieve the distinction of making the trip in record time. Earl Grey will leave here on August 15th. The distance to be covered is about 220 miles, of which about 60 miles will be made by canoe and portage. The first stretch of 124 miles being covered by rail. A water trip is mostly down stream, but even at that it will be going some to complete the canoe voyage in ten days. Will Take the "Earl Grey."

At Churchill the Governor-General will be met by the steamer named after him, the latter in addition to the Canadian Marine Service fleet. The Minister of Marine telegraphed orders yesterday to Captain Brown of the steamer Earl Grey to sail from Pictou, N.S., on July 28th. It is calculated that she will probably make Fort Churchill on August 12th. On the return voyage Earl Grey will call at St. Johns Newfoundland. His excellency will make an official call on the Government of this colony.

BALLOONIST'S FATHER DIED AT SON'S FUNERAL

Sudden Demise Was Result of Shock of Son's Tragic Death

Sollingen, Rhenish Prussia, July 19.—The father of Oscar Erbsloech, who was killed on July 13th in the fall of his dirigible balloon, died from apoplexy at his son's funeral. The stroke was brought on by the shock following the son's tragic death.

MOB WRECKED TRAIN

Chicago, Ill., July 19.—T. E. Mulvihill and Patrick Haley were shot and severely injured when a mob in a ten-coach excursion train which was wrecked by a mob during a riot at Columbia Park on the Santa Fe Railway west of here yesterday.

IN A HURRY TO STRIKE

WORK STARTS ON C.N.R. TO BRAZEAU

Two Hundred and Fifty Teams Will Start Hustling on Thursday

AIM AT HUNDRED MILES

Expect to Have Large Part of Line Finished This Year, and Trains Next Spring

Settler, July 19.—Two hundred fifty teams and 500 men start work on Thursday on the C. N. R. branch from Settler westward to the Brazeau coal mines. Work will be started at Erskine and will be carried east and west. It is expected that over 100 miles will be completed before winter, and that trains will be running over the new road early next spring.

Quick service is what the people want in the drug store these days. They can get it at the Edmonton Drug Co.

WrestlingESKIMOS TOOK THE FIRST
FROM MORROW'S ANGELSGame Was Well Contested and Both Teams Had Lots
of Pep.—Grady Fitted Well.

Robust Bill Morrow and his team of Angels blew into town yesterday and landed anthers with the Eskimos last evening at ye old battle field, Diamond Park.

Hill, who hasn't lost weight since his last appearance presented some old pictures in new frames for the deflection of the 850 fans present. Ducky Holmes, nee a Maroon, held down third and had all kinds of pep. Cecil Thompson, once with the late Medicine Hat team, was on first, while second was occupied by nobody else but ex-Robin Hood Triplett, the villain of Saturday afternoon. A highly-cultured Irishman named Burleskie was a newcomer in the out-ground. Deacon sent Grady back into the box and though hit freely at times, Jack got away with the game by 3-1. Brandon's white-haired boy, Wood, started off like Chesty Mattheson in disgust, but found the juggling rather hard as the game progressed.

There were many bright features to the battle. Mills made two perfect throws from left field and cut off runs on both occasions. Deacon made a circus catch in the eighth, off Schultz, and had to fling himself towards the spheroid to make the play. Deak then toppled over and ploughed up a deep furrow towards second base with his left ear. Ducky Holmes also thrust himself into the limelight by a sharp stab of Deacon's near hit. The batting honors were gained by Chester Eugene Cox, the Orange Field. Chesty trotted into the batting box on four occasions and emerged with two singles and the cleanest kind of a double to centre. McDonough, Cooper and Wood with two hits apiece were the Lajoles of the Angels.

After Grady had retired the visitors in the fourth with five pitched balls, the Eskimos got started. Spencer doubled with two out and scored on Johnny Brennan's sky scraper which Holmes lost in the sun. Jack took second on a balk and moved to third, when Chesty singled, but Deak pecked to Triplett.

The Lucky Seventh.
Chesty fired off the starting gun with a beauty double and Deak was there with the sacrificing staff. Grady singled just out of Triplett's reach and Cox scored. Mills was hit and the aviating Mr. Woods then proceeded to pass Moore. With the bases all occupied, Morse tore off a sacrifice

fly to centre and Grady scored. Lasti fanned.

How They Did It

McDonough started the eighth with a double and scored when Deacon threw high to catch him at third. Bill O'Brien hit safely but Holmes, Schultz and Thompson were disposed of without much further trouble.

CALLIES WON
THE 'B' FINALIn a Hard Match the Scotchmen
Defeated North Edmonton by
2 to 0.

After a hard contested game last evening the Callies defeated the North Edmontonians by two goals to no thing. During the first half the game was not of a very interesting character but in the second half both teams seemed to gain a new lease of life, and the play became faster.

The game started off by the Packing Planters pressing the Callies for some time until they cleared and taking the ball up the field with a fine bit of combination but shooting wide. The Pigmatics then proceeded to turn the tables and in their turn had a shot at the Callies goal which also went wide. It was about this time that there was another of those peculiar species of fights which nearly came off but did not do so. Two gentlemen on opposite sides had some slight disagreement, but to the exceeding great annoyance of the spectators who would have apparently welcomed the diversion of a Jeffries Johnson exhibition, they did not go so far as to actually hit each other, but confined themselves to talking to each other.

When the game was continued the next item of interest was a foul for which the referee awarded the Callies a free kick and which ultimately terminated in a shot for goal which went wide. The whistle then blew for half time with no score on either side. When the game started again the Callies started in to play a fast and clever game. They kept the ball at their opponent's goal until the North Enders cleared, taking the ball right down the field, and making a good shot for goal, and following it up with another good shot, both of which the Callies goalkeeper saved well, but the North end goalkeeper making his usual appeal for an "off side." It would really be a kindness if some one would explain to these kind of players what an "off side" really is.

A quantity of mid-field goal occurred for the next ten minutes until Allen of the Callies broke away with the ball and scored a fine goal.

The North Edmontonians then began to wake up and brought the play into the enemies' country but not for long for the Callies soon cleared and

after some excellent combination

Hoppe scored another goal for his side. The rest of the play was of the loose character and nothing very startling happened until the whistle blew for time leaving the score at: Callies 2, North Edmonton 0.

The lineup was:

Callies.—Goal, Orr; backs, Roxborough and Bryce; halves, Radermacher, Terrance and Hunter; forwards, Murdoch, Jackson, Allan, Conlin and Hope.

North Edmonton.—Goal, Woodman; backs, Graham and Towns; halves, Hall, Wilson and Brown; forwards, Mastone, Chabane, Barton, McCormack and Massare.

Referee—Mr. Atkinson.

SACRIFICE HITS

Bill Morrow is by far the most popular visiting manager, with the Edmonton fans.

The Brandon battery, Woods and Cooper, were both cotton-tops.

Deacon made a hero of himself when he pulled off the star catch. The finale was striking.

Chesty collects his hits in buccles. Allee same, oranges.

Ducky Holmes seems like a new man since he joined Brandon. But his coaching is a trifle coarse.

Manager White wishes it stated that Quigley was not released through any fault with his playing abilities, but merely because the management has to change its expenses. Quig has caught on with Moose Jaw.

Moose Jaw didn't lose last night. They were scheduled for Medicine Hat.

Morse and Brennan had the base stealing honors.

Triplett seemed to play better in his new uniform. He accepted five chances without an error.

The fans last night had a chance to see the two best short-stops in the League perform.

Borries, besides being a good ball player, is considered one of the best fielding players in the Western States.

FIVE TEAMS MET
IN OLD CALGARYWinnipeg, Brandon, Regina, Moose
Jaw and Calgary Spent Sunday
in the Cow Town.

(Albertan)

Baseball players, tall, short, fat and thin, big and lithe thronged the streets of Calgary last night and over half a hundred men who make their living playing the game were here. Five teams happened to meet in this city and on the streets and in the hotel lobbies and cafes baseball chatter and baseball slang could be heard on every side. A great fanning bee seemed to be in progress.

First there was the home team, with the Winnipeg Maroons who play here today. Then Manager Davis, of the Moose Jaw team and his men, came down from Edmonton on his way to Medicine Hat. Rosy Walters and Regina's outfit spent Sunday here after playing Calgary on Thursday, Friday and Saturday before going to Lethbridge. Bill Morrow and his rejuvenated Brandon team stayed off during Sunday and will go up to Edmonton later and this makes the fifth team. H. Lethbridge, Medicine Hat and Edmonton had been here when we would have had the whole league.

Regina goes to Lethbridge today, Brandon plays in Edmonton, Moose Jaw at Medicine Hat and Winnipeg here. By a coincidence the five teams were all in the city together, Calgary being the hub of the league. Carney, Morrow, Walters, Davis and Krueger were the rival managers who chatted with each other, while the players talked batting averages, fielding stunts and the hundred and one odd things ball players generally are interested in.

ST. GEORGES WON GAME

A match was played between teams representing the St. George's Society, and the Edmonton Cricket Club, on Saturday last. The weather was very fine and a most enjoyable afternoon was spent. The top score was made by C. H. Parker, who played good ball, and it was most unfortunate that his second partner was run out, just as they had settled down to what had the appearance of a long series of runs.

Montfield put on a useful nine. The fielding of the Edmonton team was distinctly poor, note the score of "Mr. Extras."

For St. George's, Montfield did the best work with the ball, and Woods, 4 wickets; Ballans, 3 wickets; were the bowlers for Edmonton.

Among the spectators were noticed His Honor Lieutenant-Governor Balyer and party.

HUGHEY SORE
AT THE TIGERSSays Their Slump is Not Due to
Hard Luck But Because They are
Playing Sand-Lot Ball.

Detroit, July 10.—Hughie Jennings, sitting out in front of the Tigers' hotel in Philadelphia a day or two ago, talked in a frank and freely about "slumps" by championship teams, and about the habit many players have of "relaxing" when they have the notion that a hard fight is not needed to defeat a certain club.

"These boys of mine would be all right today; would be up there fighting for the pennant had they not fallen into the notion that the Browns were easy," said the leader of the three-time pennant winners. "We had just wound up a great campaign at home against the Yankees, Athletics, Red Sox and Nationals, when we went over to St. Louis to face O'Connor's team. Since our success with the boys got the idea that the Browns were easy marks, and they played accordingly; played poor ball and were beaten as they deserved to be.

"I haven't much sympathy with the hard-luck cry in baseball. As a rule, season in and season out, it is the club that plays the better ball that wins a ball game. There are exceptions, of course, but these only serve to prove the rule.

"But let a ball team get a crazy notion that some other nine is easy and it is down and out for weeks; down and out as the Tigers have been down and out since our success with St. Louis. Honestly, I believe that it requires from two to three weeks for a team to recover its speed once it has relaxed its championship pace.

"Lots of people have said to me while we have been in the doldrums: 'Hard luck, Hughey, old boy. It can't last.' Hard luck, nothing! We have been playing sand-lot ball! That's why we are so far back in the race. We've been doing things we ought not to have done and have left undone the things we ought to have done.

"I've got a pennant winning team here all right and we will be back in the race. I figure once the boys shake off that spirit of relaxation and again get on their fighting armor.

"Pennants have been won by clubs in much poorer standing in the race in mid-July than are the Tigers today. But pennants are not won by careless, indifferent ball playing such as the Tigers have been doing for two weeks or more. The Athletics are going along at their present great speed because every man on Mack's team is imbued with the belief that the team is going to win the flag if not one man on the nine relaxes his speed for a single instant. Once I can get the Tigers in feeling that way again all may be well.

"People sometimes talk about the easy life of a baseball manager; thinking, evidently, that his only work is getting out there in the coach's boxes and arguing with the boys. That's the easiest part of a manager's life. The thing that goes on his nerves and makes him prematurely gray-haired is the tendency of his players to let up in their work and take things easy when they ought to take things hard to sort of go to pieces under fire and forget or neglect to do the things they were taught to do in the training camp.

NORWOOD AND CALLIES

The above teams will meet on the Second street grounds tonight for a friendly game. There should be a good exhibition put up. So all you "hoos" Mons want to get on the job and practice for those coming "Hot" games. The game is called for 7:15 sharp. Referee: R. Hill.

SHEPPARD'S NEW RECORD

New York, July 10.—Melvin W. Sheppard, the crack middle-distance man of Irish-American A. C. broke the world's record which had stood for 20 years when he ran 1000 yards at Celtic Park yesterday at 2:12.25, clipping three-fifths of a second from the mark established many years ago by Lou Myers. Sheppard took the lead after 100 yards and won by five yards.

LITTLE MAKES
THREAT GOODAttempts to Mount Stage at New
Music Hall Where Johnson is
Appearing.

New York, July 10.—Carrying out his threat made several days ago, George Little, formerly manager of heavyweight champion, Jack Johnson, appeared unexpectedly at Hammerstein's theatre here last night, where the champion is performing, and demanded an audience. Little rose from his seat, walked down the aisle and attempted to mount the stage. Great excitement prevailed among the audience and several men ran forward and hurried the former manager out. "I'll see him in my dressing room," shouted Johnson from the stage.

More than 6000 people were gathered about the outside of the theatre when Little made his exit. Going to the stage door he again attempted to reach the stage, but was frustrated by stage hands. Then he went to Johnson's dressing room, where he and the champion began a confab that lasted for more than an hour and a half. What the result was, was not made known up to this hour tonight. Little declares that Johnson owes him a large sum of money.

STANLEY FOR THE HAT?

Calgary, July 10.—There is a rift in the fur and Medicine Hat wants to back down and Medicine Hat has dropped out of the league, or at least half of the Hat has dropped out and the other part doesn't know whether it has or no.

It seems that things have not been going just as well at the Hat as expected. With a losing team the attendance, which was a very large, began to fall off until it came to the vanishing point. Mr. Cousins, the main works of the baseball team in that city, thereupon turned franchise to the league and said that the Hat was through with baseball. Mr. Eckstrom, president of the league, got busy at once and arranged to have the league carry the team until the next meeting, which he called for Calgary tomorrow. He placed Bennett in charge, Hamilton having resigned as manager a few days ago. But now some of the shareholders of the Medicine Hat baseball club have disapproved of the action taken by the Medicine Hat executive and are trying to rescind the action taken.

They say that Cousins took this action without consulting other members of the executive.

Mr. Eckstrom in reply to a telephone message last night said that he had made arrangement for Moose Jaw to play at the Hat for the rest of the series. It is stated that overtures were made to Calgary to get Stanley to manage the team, what there is left of it or whether it may become out the Calgary club is not very enthusiastic over the proposition.

There are two suggestions. One is that the club be handed over to Saskatoon and another is that an offer was made but as yet Saskatoon did not answer favorably. The other is that the Mad Hatters be made a travelling team without a home, all games being transferred to the other teams. The last is most likely. It is said that another team, one of the Saskatchewan teams, is not very sound and that some of the members of the executive are in favor of quitting.

CENSUS TAKERS HERE NEXT JUNE

Dominion Census Will be Taken on June 1st, 1911.

SOME QUESTIONS ASKED

Who You Are, Where You Come From, What You Know and What You Do.

The next census of Canada will be taken under date of June 1st, 1911, and will embrace the subjects of population, mortality, agriculture, manufactures, minerals, fisheries and dairy products.

Population will be recorded under the heads of residence and personal description; citizenship, nationality and religion; profession, occupation and trade, or means of living; wage earnings and insurance; education and languages spoken, and infirmities.

Every person living on the 1st of June will be entered on the schedule of population by name, as member of

a family, institution or household, together with place of habitation, sex, relationship to head of the family or household and whether single, married, widowed, divorced or legally separated. The month of birth, year of birth and age at last birthday will also be recorded.

Where You Come From.

Entries will be made for each person to show the country or place of birth, year of immigration to Canada if born elsewhere, year of naturalization if formerly an alien, and also racial or tribal origin, nationality and religion. Every person of alien birth who has become a naturalized citizen is a Canadian by nationality; and every British subject with residence in Canada, as well as every native of Canada who has acquired citizenship by birth or naturalization, is also a Canadian by nationality. But there is no Canadian by racial or tribal origin, unless the Indians are so counted.

What You Do.

Every person having an occupation or trade will be entered for it, but if employed in the census year at some other occupation for part or

whole of time he will be so recorded also. If the person is working on own account, the entry will be so made. An entry is also required to be made showing where the person is employed, as on farm, in walled mill, at foundry shop, in drug store, etc.

The number of weeks employed in the number of weeks employed in 1910 at chief occupation or trade; at other than chief occupation, if any; the hours of working time per week at chief occupation, or at other occupation if any; the total earnings in 1910 at chief occupation; the total earnings at other than chief occupation; and the rate per hour when employed by the hour.

What You Know.

Under the heading of education and language records will be taken for every person of five years of age and over showing the number of months at school in 1910, and if the person can read and write, and the language commonly spoken by each person. The cost of education in 1910, and if persons over 16 years of age at college, convent or university is also called for.

What Ails You.

The last question on the schedule of population relates to infirmities. It calls for a record of each person having an infirmity. If blind, deaf and dumb, crazy or lunatic, idiotic or silly, a record thereof will be made in the proper column, and the age at which the infirmity appeared is required to be specified.

CAN'T GET BACK HOME

U. S. Immigration Officials Again Show Their Authority

Niagara Falls, July 10.—Armed with a letter from a St. Catharines physician, and accompanied by her mother and sister, Mrs. Joseph Glass, whose husband is a Buffalo tent maker, made a fifth attempt yesterday to enter the United States from here. The U. S. immigration authorities declare the woman of unsound mind and refuse to allow her to enter the country until her husband establishes his American citizenship. The case is creating some what of a sensation along the border.

MARITIMERS TO BE BANQUETED

Local Men Will Give Dinner in Honor of Visiting Members of Parliament

A meeting of the former residents of the Maritime Provinces, now living in Edmonton, was held in the office of Mr. MacKinnon of MacKinnon and Cowell, last night when a committee was appointed to arrange for a luncheon which will be given to Mr. E. M. McDonald, M.P. of Pictou, N.S., who is expected to arrive in Edmonton next month with Sir Wilfrid Laurier. It is hoped that the Hon. W. S. Fielding will also be present, as he hopes to overtake the party on their arrival in Edmonton. It is likely that the luncheon will be given in the Separate School Hall.

ALL ROUTINE BUSINESS.

Nothing Much Doing at Commissioners' Meeting Yesterday.

The City Commissioners disposed of a number of minor matters yesterday afternoon. The contract for laying water mains was awarded to George Stanger, although E. Manders submitted a lower tender, which, however, was incomplete. Commissioner Duthcher stated that the mayor and he had called upon the Alberta College Board in reference to the option the city hold on the property south of College Avenue. The board agreed to sell the property for \$32,500 payable next year or as soon as the next bond issue was sold. The rate of interest to be paid by the city on the money is 4½ per cent. The matter will be passed on by the council. The request of P. Burns and Company asking for a two inch pipe service to their ice-making machine was granted. John Walter and Company, limited, wrote asking permission to construct a spur line 800 feet long down Fourth Street to their mills. A decision will be made at a future date.

An application from John Chambers, government engineer, for a loan of 800 feet of six inch cast iron water main was referred to the city engineer for report. City Solicitor Brown reported the claims of contractor Warren for damages in connection with the condemnation of concrete in the walls of the Cecil Hotel as baseless.

TEMPERANCE MEETING.

The increasing prosperity of the Pleasant Sunday Afternoon meeting under the auspices of the Temperance Moral and Reform League at the Hippodrome Theatre was shown on Sunday afternoon at 4 o'clock when, notwithstanding the high temperature there was a large attendance.

The committee had departed from the usual course and provided a musical programme.

Major Lee took the chair, and in a few well chosen remarks expressed his sympathy with the temperance cause.

The following musical talent rendered the various numbers with effect which was greatly appreciated by the audience: duet, Mrs. J. E. Blayne and Mrs. F. W. Horner; solo, Mr. Howard Stutchbury; violin solo, F. Gorenbaum; male duet from Eskimo Presbyterian Church; male quartette from Grace Church Methodist Church; The Salvation Army band after playing outside the theatre, assisted by giving several selections during the programme.

Next Sunday there will be a temperance address by Mr. Geo. H. Knox, late of the Anti-Saloon League of the United States.

Highest Type of Agriculture Not Possible Without Live Stock

A Notable Circular Issued by the University of Illinois

The following is the concluding portion of a circular recently issued by the University of Illinois agricultural experimental station, written by W. H. Mumford, chief in animal husbandry:

I do not wish to be understood as pleading for the extension or even the preservation of particular systems of live stock farming that do not fit the times and conditions. Some of live stock production should and will be abandoned; others, noticeably dairying and poultry raising will be greatly extended.

Contrary to the opinion that has been frequently expressed, it is not true, except in minor instances, that older agricultural countries like Germany, France, Holland and Denmark, are abandoning live stock production because of increases in population. In most instances, as has been shown elsewhere, live stock have about the same relation to population that they did several generations ago. Whether or not live stock will ultimately disappear from the farms of the United States is largely a matter of conjecture. Such an exigency is so far removed from being a present day problem that its consideration should be deferred for several generations.

It is reasonably certain, however, that it is not absolutely necessary, and that the highest type of agriculture is not possible without live stock. If the highest type of intelligent citizenship is to prevail in this country, it will rest largely upon the possibility of developing standards of living among country folk which will necessitate systems of agriculture practices which constitute the highest type of agriculture. In other words, it is possible to build up in enduring civilization around systems of farming, which do not exclude live stock and which will not only profitably utilize to the fullest extent the agricultural resources of the United States but develop an intelligent and industrial yeomanry.

A system of exclusive grain farming will necessarily find a large place and will necessarily find a large place in the future of this country. Exclusive grain growing increases the availability of supply of feeds used in animal production on the one hand and on the other, removes increased competition and the probability of an overproduction of live stock. It should not be forgotten that live stock husbandry is the most important factor in the corn market. As nearly as can be estimated, 80 per cent. of the corn produced in the United States is fed to live stock. Then, too, there are large areas where the production of live stock will long prove not only the most profitable but also practicable by the only use which can be made of these lands. This is a fact which should not be overlooked in any effort looking toward the development of the agricultural resources of all the states. Intelligent systems of live stock production are feasible and profitable not only on lands not adapted for grain growing, but upon lands especially suited to grain growing. If, therefore, an individual adopts a system of exclusive grain farming, he does so from choice and not because systems of live stock farming are not profitable.

It seems clear that the large problem is not what system of exclusive husbandry, but what systems of live grain farming shall replace animal stock production enter into our farm practice and are best suited to the conditions that obtain. Because agricultural and economic conditions are changing and will continue to change it is to be expected that the most profitable animal husbandry of today may give place to an entirely different system in the years to come. It should be the business of animal husbandry investigators to anticipate these conditions, and to point the way as far as possible. The collection of data upon which definite systems of live stock husbandry may be intelligently established under prevailing conditions is the most important service the animal husbandry department can render the state as a whole and the live stock interests in particular. It is absolutely impossible to do this with any such amounts of money as have yet been appropriated for live stock investigations. In other words, while we are dealing with a problem many times as difficult as grain farming,

we have had only sufficient funds to investigate matters in detail in live stock husbandry. It cannot be too strongly urged upon that system, too strongly urged that systems of live stock husbandry in which corn, clover and alfalfa are leading factors, in other words, systems of live stock production that meet modern conditions, should be worked out as speedily as possible.

3. The keeping of more and better live stock on the farm promotes greater interest in farm life. The tendency for the boys and girls, the young men and the young women to early leave the farm is a tendency which is universally regretted. I venture to say that no single agricultural reconstruction would increase this tendency more certainly and more rapidly than the abandonment of live stock husbandry. In other words, eliminate live stock as an important factor in agricultural practice and you remove the most powerful magnet that attracts and holds the brightest and best among our farm raised youth. The tendency of the young men and young women to leave the farm is a tendency which is universally regretted. I venture to say that no single agricultural reconstruction would increase this tendency more certainly and more rapidly than the abandonment of live stock husbandry. In other words, eliminate live stock as an important factor in agricultural practice and you remove the most powerful magnet that attracts and holds the brightest and best among our farm raised youth.

4. It may be argued that the average farmer and especially the tenant is not sufficiently skilled and informed to make live stock farming profitable. This fact multiplies the difficulties surrounding the future of the live stock industry. If, however, systems of live stock husbandry are broadly speaking, worth while, ought we to shrink from the effort that it will take to put our Illinois farmers out of the class of average farmers? May I ask who is responsible for this lack of skill and information concerning successful live stock management? I fear we must admit that it is we who are charged with representing this interest have done all within our power to change these conditions we have not lived up to our opportunity. It does not lessen our responsibility to point with pride to the achievements of our Illinois breeders and feeders, or to the fact that we have done more than most of our sister states. The fact remains that with all that has been done by various agencies we have yet but made a respectable beginning. At present system of tenant farming, incompatible with live stock production, would it not be well to work out and establish tenancy systems which would encourage live stock production?

4. If advocates of a system of live stock husbandry could not forth with a stronger argument than that it encourages and, speaking broadly, necessitates the residence of the owner of the farm on the farm it would indeed be sufficient. I take it that we are interested in the live stock industry of the farmer as a class as well as the financial possibilities of land ownership. It is a deplorable condition in the trend of the agricultural practice of a state when intelligent and successful farmers forsake their farm homes for town or city, while their farms pass to the control of tenants whose chief interest is in mining the soil and who seldom care for the best development of country life.

There are several agencies for improving the interests of live stock producers in Illinois, and I am pleased to say that as far as my knowledge goes all of these agencies have directly or indirectly benefited the industry to the extent of many times their cost. Great as the benefits the live stock producers have been modest in their requests and still more modest in their demands. While each of the agencies is doing much, their good work in some lines at least should be greatly extended.

Legislative appropriations to encourage industries which impoverish the state are a waste of public funds and a menace to the best interests of every citizen of the state. No member of this association would knowingly lend his influence or his support to such a cause. On the other hand, if as individuals or as an association we fail to give our enthusiastic support to all and all agencies which will conscientiously and effectively aid

in working out the problem of more and better live stock for Illinois farmers we will fail to render a distinct service to Illinois agriculture.

These matters have rested heavily upon my mind and heart. I am willing to continue to bear them with a murmur if I thought it would contribute in the least to the sense of the good of Illinois agriculture, but after looking at the question fairly and squarely and from all angles, I have come to the conclusion that it is my duty as a public servant to present the subject to you as I see it and ask for your careful consideration. I believe that there is in the heart and mind of every loyal citizen of the state a determination to assist in a positive way a movement which looks to the agricultural betterment of the state.

I strive for nothing less than that Illinois live stock producers through the assistance and leadership of those charged with the animal husbandry interests at the university shall take the lead in a distinctive movement for the preservation and extension of the live stock industry in Illinois. Standing along rational lines and until such time as some other system of farm management shall be demonstrated to be more profitable and better suited to larger interest in farm life and greater intelligence among farmers.

I believe you ought to know that the animal husbandry interests at the university are not in a position to further extend their usefulness either inside or outside the agricultural college and experiment station of the University of Illinois. Increased appropriations for live stock investigations were asked from the last general assembly, but they were not granted. Additional equipment in the way of a suitable and adequate stock yard, feed house, horse barn, and a clinic were badly needed. These were asked for and not granted. These things were also denied by the preceding general assembly. Needs then have become necessities now unless farmers and live stock producers particularly are willing to let this important industry of the farm fall into disfavor and oblivion.

To emphasize the need of inaugurating an active and vigorous campaign looking to according to animal husbandry interests the position they should hold in the agriculture of Illinois, I need but call attention to the fact that there was a proposition before the last general assembly of Illinois to discontinue altogether live stock investigations, and but for the prompt action and ark of a few loyal men such an action would have been taken. As it was the proposition met with the reception it deserved, namely, it was killed, yet that any legislator should even dare to make such a proposition illustrates the lack of interest on the part of the live stock interests of the state to demand that adequate legislative recognition should be accorded this industry.

If our needs have lacked urgency in the past that condition no longer obtains. I would sooner expect to be criticized for not placing these needs forcibly before you at an earlier date than for having asked for too liberal support of the animal husbandry work of the college and station. Nor do I wish to be understood as seeking to place those who have loyally and freely given of their thought and time. I personally feel that I owe a debt of gratitude to these men, which I can never repay. The state owes a still greater debt which it is our duty to make good to meet. These loyal men have been powerless in their attempts to make an impression on the situation.

The great need now is that the number of men should be greatly multiplied who feel the burden of responsibility for existing animal husbandry affairs. A large and influential representative body of Illinois stockmen, if you will, who are willing to make a little personal sacrifice if need be, in taking advantage of every man generally, a man with a legitimate opportunity to make stock situation. The insistence of such representative men at the next general assembly that ample support be accorded this interest would be effective. I should be remiss if I did not say that we have already received a set back of four years, and that it has always been impossible to attempt to investigate the labor problems such as are suggested here and which changed conditions are now forcing upon us. As a result of insufficient appropriations the department is seriously hampered in its efforts to carry forward its work of teaching and investigation even on the present basis, saying nothing of what the conditions now demand. Members of the recent corn growers' and stockmen convention will testify, I am sure, that our facilities for giving instruction in stock judging to a large number of people are totally inadequate. The unfortunate position in which the department

is placed will continue until such time as stockmen and those interested in the best agricultural development of the state insist that their interests in the legislature shall be cared for.

May I sum up then by saying that,—the importance of animal husbandry as a means of maintaining agricultural prosperity is clearly indicated by the history of nations. A mere comparison of the types of farmers found in England, Scotland, Denmark, and Holland with the peasant wheat-growers of Russia or with the wheat and rice farmers of India is sufficient to illustrate the close relation between live stock and agricultural progress.

Animal husbandry necessitates rotation of crops and frequent seeding down. It requires activity and skillful management, the year round. It counts the farmer to observe the market conditions. It brings him in contact with men both as a buyer and as a seller. It enlarges his heart, and broadens his sympathies beyond the routine of sowing, cultivating and harvesting.

Grain farming, on the other hand, leads to continuous cropping with out proper rotations. It eliminates the strenuous life for a short season of the year, followed by a long period of inactivity. It creates an itinerant laboring class and stimulates tenantry rather than permanent farm homes. It fosters the land-robbing spirit. Corn farmers, wheat farmers, cotton farmers, rice farmers, grain farmers as a class are strongly led to overwork their soil-fertility capacity, for most men engaged in exclusive grain growing manifest small interest in a permanent agriculture. The history of agriculture in this and other countries shows that the live stock producers have taken a leading part in efforts to maintain and increase the fertility of soils, and in my judgment the live stock producers can now be relied upon to carry forward the gospel and practice of the highest type of permanent agriculture.

While it is conceded that permanent maintenance of soil fertility without live stock is possible, it is not practicable as a statewide policy because it is not the highest type of agriculture and because few farmers can be induced to comply with all the conditions necessary to make it effective. While grain farming will ultimately supplant live stock husbandry where conditions make such a system of agriculture practicable, it should be resorted to only when and where live stock husbandry proves less profitable.

A very considerable extension of live stock farming in Illinois would materially increase the cash output from her farms and at the same time save millions to the future wealth of the state by keeping on the farm a large percentage of the fertility that is now sold off in the form of corn, oats, and hay.

Not only so, but the temptation is to abandon live stock farming for the apparently more profitable grain farming, but if stock farming is reduced, the need for grain is also reduced and the profits of grain farming will decline as well as the fertility of the land. The production of live stock is an supplement to grain growing, a further possible, entirely feasible and profitable step, a farm manufacturing process which converts raw material and by-products into more concentrated, valuable finished products which readily command a cash market. It is a supplement to and not a substitute for grain growing. It not only increases the income but also, and at the same time, lessens the removal of plant food from the farm. It is an enterprise which aids materially in the development of a well-balanced agriculture. The interests of all parties, therefore, demand that instead of allowing live stock farming to decline in Illinois, it is for the best interests of all that it should now be further developed.

The problem of a permanently profitable agriculture that is worth while is a problem of the farmer as well as a problem of the farm; and no other factor exerts such a profound influence upon the development of the farmer as the ownership of live stock. In other words it should not be lost sight of that aside from all elements of profit the establishment and maintenance of systems of farming involving the large use of live stock, means that inevitably farms will be occupied by men and women of a high order of intelligence with a full appreciation of the best standards of country life.

MONK RULES THE CZAR
An Open Secret That Theophilus Has Great Influence Over Nicholas

"Czar Nicholas rules the Russian and the monk rules the Czar Nicholas." This remark may be heard all over Russia today. It is an open secret that somebody—usually an orthodox priest—always rules his imperial majesty, even to the extent of dictating the color of a new uniform, or the appointment of a new minister. It is notorious that the Czar inclines to superstition and mysticism and is also very impressionable. He will not set out on a journey on Monday, or decide any important matter except on a saint's day. He is a staunch upholder of the Greek Church—and which he is the supreme head—and, rumor says, thinks more of the choice of a new ikon than of a new minister.

It is, therefore, not surprising to hear that the latest favorite is a man named Theophilus, who is supposed to have been made a bishop before long. The Czar refuses to accept

ties, therefore, demand that instead of allowing live stock farming to decline in Illinois, it is for the best interests of all that it should now be further developed.

Theophilus church ceremonial unless Theophilus accompanies him, and yet a few months ago, the monk was unknown. One of the grand dukes, Constantine, found him in a monastery in Moscow and the monk's conversation pleased the grand duke so much that he took him to Tsarskoe, the Czar's summer residence. Since John of Cronstadt's death, the Czar has had no educated favorite among the clergy, and as soon as he heard of Theophilus his majesty sent for him and promptly fell under the priest's spell.

FRESH AIR CAMP

The United States desire to acknowledge a cheque for \$15 handed to them by C. E. Townsend, treasurer of Syndicate American Baptist Church, it being specified that the amount should be devoted to the Fresh Air Camp, for the poor and sick women and children.

A second party is being got together and already over twenty names are before the secretary. The reports from the camp are of the brightest.

THIS STRIKE AVERTED

Question Involving 150,000 Men On Pennsylvania Lines Was Settled
Philadelphia, Pa., July 19.—General Manager W. S. Myers of the Pennsylvania Railway and the committee representing 150,000 trainmen and conductors employed on the lines of the road east of Pittsburgh, yesterday agreed on a basis for a settlement of the wage controversy.

It is proposed to establish a wireless telegraph station at the meteorological observatory on Mount Mirador, in the Philippines, to give warning of typhoons to vessels in the China Sea and points along the China coast.

\$1.00 SALE HUDSON'S BAY CO. \$1.00 SALE

The Great Traders of the Great West

Unique One Dollar Sale

For Wednesday Only, July 20

THIS will be one of the most interesting, as well as the most satisfactory, sales ever held in Edmonton. In many instances the bargains border on the phenomenal, and all offerings will be quite sensational. \$1.25 goods, \$1.50 goods, \$1.75 goods and up to \$2.75 will offer conspicuous places in this sale, but cut down to the \$1.00 level. 1.00 Be an early bird Wednesday morning. Our clerks will be here bright and early at 8.30 a.m. **1.00**

Late Sporting News

NO GAME AT HAT

Medicine Hat, July 18.—The game between Medicine Hat and Moose Jaw was declared off tonight pending a satisfactory settlement of the state of affairs arising from the fact that Medicine Hat has thrown up its franchise in the league. The players on the local team wired President Eckstrom regarding the financial backing of the team and received a reply to the effect that the league would guarantee all salaries and also visiting club's expenses. This was not sufficient for the Hat players, however, and they demand that a member of the team be selected as manager and decline to go on the field until this matter has been decided. A league meeting, it is understood, will be held in Calgary on Wednesday to decide upon what disposition will be made of the franchise.

President Frank Gray stated last night that the Edmonton club will be represented at the meeting and he ex-

pected some arrangement would be made whereby the circuit is kept intact until the end of the season.

MORE WORRY FOR DETROIT

The Vancouver Province announces the first purchase this season of a Western Canada league player by one of the Major Associations. Here is the story:

"Big Chief" Steels the Gonzaga College lad of Spokane, who has been twirling for Moose Jaw and Regina in the Canadian Twilight, has been sold to the Detroit American League team for \$1,200 with orders to report August 15.

Steels has been pitching great ball up north, especially since his transfer over to Regina. Armour and Casey, two big league scouts, who have watched him throughout the season, think he is a comer, and Joe Cohn is kicking himself that he let the youngster slip through his hands.

UNKIND.

Said the bibulous gentleman who had been reading the birth and death statistics: "Do you know, James every time I breathe, a man dies."

"Then," said James, "why don't you chew cloves?"

JOTTINGS FROM GIBBONS L.R.K.

The youngsters met the rain yesterday with irrepressible spirits. Although penned in in the large tent it did not limit their enjoyment. The one who has the oversight of the kitchen, says it was simply astonishing the amount of food consumed. There seemed to be no satisfying of the hunger of everyone alike. And when Mr. Berg's box of oranges arrived yesterday in the rain it had an electrifying effect—the little ones skipped about for joy. The Aid's rig which arrived in the city this morning has returned again with other gifts of cakes from Dodge's Bakery, eggs from Mrs. Bell, besides other immediate necessities which had to be secured. Just before the rig left a bundle of illustrated papers and magazines was added.

Mr. Gibbons was very kindly come to the rescue with a splendid milk cow. She gave seven quarts of milk this morning. The cow will be handed back to the owner at the end of the camp.

An effort is on foot to arrange for an excursion on the water to the camp site.

The "Don't Need to" Theory

In a recent debate at Reno Mr. James Jeffries failed to convince Mr. Johnson.

Some seven or eight years ago Mr. Jeffries was the leading man in his line of work. Business was good and his profits were big.

Having all the money he could handle at the time, he concluded to take a rest.

To be sure he planned to get into the field again at the proper time.

But everything was rosy and there really seemed no good and sufficient reason why he should spend so many hours a day keeping his muscles limber and strong and his mind good and his heart and nerves in trim.

Eventually the meeting with Johnson was arranged. Mr. Jeffries was still tolerably content with what he had done.

(Brother, a has-done is about as bad as a has-been.)

Mr. Jeffries did not care to stand up in the training ring and punch and take punches. He did not see any necessity of practicing side-steps and feints and rushes.

He knew all about them. Why, seven years ago he had done all of that he ever needed to.

Mr. Johnson did not overlook the boxing and the wrestling and the clinching and the sidestepping, etc.

As a result, Mr. Jeffries received Mr. Johnson's compliments on the point of the jaw, and his business career closed.

Advertising a business is the training of that business.

Advertising keeps a business healthy.

It tones up its liver, strengthens its biceps, steadies its heart and keeps its nerves in order.

Once in a while a man decides that he is doing so much business that he can stop advertising for a while and run on momentum.

Momentum is the gradual process towards a full stop.

The momentum business is usually prematurely full-stopped by the straight left jab of the well-trained competitor who finds his opening in the fifteenth round.

If you want to stay in business stay in the advertising field.

No matter how much business you are doing, keep up the energy that makes it.

You might as well cut off your legs because you are running well in a foot race as to cut off your advertising because your business is too good.

You might as well tell the insurance man that you are so healthy you will drop the policy for a few years as to stop advertising because the orders are piling up.

"Don't need to" is the eventual preliminary to "Can't do it."

The only man who doesn't need to advertise is the man who has retired from business.

The only policy holder who doesn't need to pay his premiums is dead.

Mr. Jeffries doesn't need to train any more. He is licked.

Cities do not grow up in a single night BUT--

You watch property on the Strathcona side of the river from now on.

You have probably had quotations on property there a few months ago.

What are they asking for it today?

Phone up the agent of the particular property you were interested in.

The subdivision I wish to interest you in is

Hillcrest

It is situated on a beautifully graduated slope overlooking the North Saskatchewan, presenting a magnificent view. This is a property which in a few years' time will command handsome Prices.

The High Level Bridge is going to revolutionize prices in Strathcona

just as soon as the bridge is completed and a five cent car fare is established.
Watch Strathcona grow

**The time to buy is today. Price of lots
from \$25 to \$65; ten dollars cash and
balance to suit purchaser. No interest.**

It will not cost you a single cent to come out and view this property. It is a pleasure to show it.

About Town

At a meeting of the Presbyterian extension committee held last night in First church it was decided to erect a place of worship at Calder, near the G. T. P. works.

The car men of the C. N. R., about 50 in all, who went on strike last week, returned to work yesterday. The award of the arbitration board which at first was not acceptable to the men was later accepted.

Lydia Mack, the heavyweight negro, who backed up her opinion of a street-car conductor last Saturday afternoon by landing him a blow between the eyes, was taken to Calgary yesterday, where she will serve a month in the mounted police gaol room.

A lawn social will be held on Thursday evening at the residence of Hugh McKay, corner of Carey and Woodland avenues, under the auspices of the Ladies' Aid of Erskine church, Northwood. Supper will be served from 6 until 8 and afterwards a splendid programme will be provided. The S. S. band will be in attendance.

Hector Landry, of Gariep & Landry, has written the city on behalf of York & McNamara, threatening a legal suit as the result of alleged damages caused to a large number of lots which they own in the vicinity of the incinerator. The commissioners hold that the incinerator, since the burning of manure was stopped, is not offensive, and that no action lies against the city as a result. Mr. Down, city solicitor, has the writ under consideration and will submit a formal report.

In the Horticultural section of the Edmonton Exhibition Association, the date for receiving entries for lawns and gardens, has been extended by the committee, to Wednesday, July 20 at 9 p.m. There are several gold and silver medals offered, and there are classes for both professionals and amateurs. There is no entry fee in this class, all entries will be taken absolutely free of charge. All entries must be made on the regular forms which will be provided by the secretary. For further information apply to the Exhibition Secretary, McDougall Court, McDougall avenue.

Jack How is it that Mrs. Brown can get a quiet horse and drive her lady friends and you cannot get one? Well, my dear, Brown gets her horse at Horner's Livery and you get it at the market.

Daniel McDougall was brought into town yesterday by the mounted police on his way to Fort Saskatchewan, where he is to spend the next four months, having been convicted of having liquor on his premises at Wolf.

Premier Sifton did not return from the south yesterday as was expected but will probably arrive this afternoon. It is expected that he may have some information to impart relative to the dates of the bye-elections in Macleod and Gleichen.

It is requested that all former Lamin boys meet on Wednesday night, July 20th, at the Young Men's Liberal Club at 8 o'clock sharp for the purpose of arranging a reception for F. F. Pardee, M.P., chief Liberal whip and member for West Lamin.

Black Watch Camp, Sons of Scotland Benevolent Association will hold its regular meeting in Houston's hall on Wednesday evening at 8 o'clock prompt. Chief Quin has important business on hand, and requests a full attendance. Initiation and degrees.

A special meeting of the Edmonton Municipal League will be held at Mitchell & Reid's Hall, No. 802 Jasper avenue east, on Thursday evening, July 21st, at 8:30. Matters of importance to every citizen of Edmonton will be discussed and prominent speakers will address the meeting. Come everybody, this is an open meeting, and you are welcome.

Mayor Lee and Commissioner Bouillon inspected a small frame house on the South side of Grierson street, which is in such condition that it might topple over the bank at any moment. The house is very old and it is probable that the excavation which has been carried on immediately beneath has weakened the foundation. It is now at an angle of twenty degrees. It has not been occupied for some time.

The additions to the J. Y. Griffin Co. packing plant are being rapidly brought to completion. The new office facing on Norton street and in close proximity to the car line will be finished by August 1st. It is a very pretty building of bungalow style and will cost \$18,000. Besides the office there are in course of erection new ice houses which will have a capacity of 200 tons of ice each. Two floors are being added to the cold storage building which will greatly increase its capacity.

The investigation of the city commissioners into the charges by Contractor Childs, who has charge of the roofing of the new power house, for work, said to be unauthorized by the city is in progress. Commissioner Houston had a talk with R. V. Lines, the architect of the new building, but it is not known what transpired. The city council will hold its regular meeting tonight and it is expected that matters in connection with Commissioner Butcher's proposed trip to England, and also with the Laurier reception will be dealt with.

Some what exciting scenes were witnessed yesterday evening at seven o'clock, when a fire broke out at No. 30 Jasper West adjoining the Crystal Block. An employee of the family of H. K. Hillborne who conducts a clothing store and lives overhead, was caught in one of the front rooms without any means of escape. However, a ladder was quickly sent up and Wm. McCartney from No. 2 fire hall swarmed up the ladder and brought the woman safely to the ground. The cause of the fire is unknown. Starting in the rear of the building it quickly spread and but for the prompt work of the fire department would have spread quickly to the adjoining buildings.

The stock of the Brenner Electric Supply Co. and the Burnham Frith Electric Co. in the building was damaged by water.

A circumstance which might have resulted seriously was the fact that the hydrant at the corner of Jasper and Second streets had been broken and left in that condition by parties who had been using it during the day. Fortunately the Central fire hall equipment arrived about the same time and two streams were run from Jasper and First.

Personal

Andy Duff of the C. N. R., dining car department, left last night on a pleasure trip to the east.

Mrs. Jas. McCausland, accompanied by her daughter, Miss Lillian, left for Saskatoon yesterday morning via the G. T. P.

Mrs. Parnley and Miss Muriel of Toronto, have been visiting Mrs. John Trinton on their way west to Edmonton and other points—Medicine Hat News.

Doctor and Mrs. Blais left Sunday morning for Rochester, Minnesota, where they will remain one month or so in the Mayo Brothers' Institute. During his sojourn in Rochester, Doctor Blais intends to study the latest surgical proceedings by which the two celebrated American physicians have obtained such bright results, and achieved their universal reputation.

PLAYING WITH MATCHES

Children Set Fire to Curtain and House is Burned

Playing with a box of matches while left alone for a few minutes by their elder sister, the two small children of John Denis, of Columbia avenue accidentally set fire to the curtains in the front room shortly before four o'clock yesterday afternoon and in an instant the whole room was in a blaze. Central and No. 3 fire halls quickly answered the call and though they were unable to save the furniture and effects the structure itself is still standing. There is no insurance on the building or the furniture.

Over the telephone it was reported that it was the Imperial Oil Co. premises and a large crowd followed the fire reels in that direction.

YOUNG WOMAN KILLED

Attempted to Pass Under Train and Was Crushed to Death

Winnipeg, July 18.—Alice Bell, employed by the Canadian Pacific, was instantly killed at the station here today. She was on her way to work and was a few minutes late. Determined to pass through between the cars and beneath the apparatus connecting them, she could have done this in a few seconds, but just at the instant when she was in the greatest danger, the engine backed the train. The engine did not move more than a few feet but it was enough. The wheel passed over the chest of the girl and death was instantaneous. Miss Bell was a recent arrival in Canada and lived at 254 Austin street.

CAUGHT IN BUSH FIRE

Two Young Women Lose Their Lives by Fire

Spokane, Wash., July 16.—Trapped in their little home cabin on Mill in their little home cabin on Mill surrounded by flames from forest fire, which have been raging here since Friday, Miss Pearl Browne, aged 22 years, a school teacher, and her young niece, perished yesterday.

Dr. Martel's Female Pills

SEVENTEEN YEARS THE STANDARD
Prescribed and recommended for women's ailments, a scientifically prepared remedy of proven worth. The result from their use is quick and permanent. For sale at all drug stores.

LIEUT. MORRIS IS THIRD IN KING'S

Official List Places Him Third and Not Second, as Was Announced

Bileley, July 19.—The total winnings of Canadians at Bileley this year totalled \$890 as compared with \$840 last year. The individual winnings were: Private Bibby, Dundas, 6 pounds; Sergt. Crowe, Guelph, 16; Private Clifford, Toronto, 15; Sergt. Eastwood, Winnipeg, 41; Capt. Forest, 1; Sergt. Freshorn, Hamilton, 16; Private Latimer, Toronto, 4 pounds; Sergt. Melnes, Edmonton, 41; Capt. McFarlane, Vancouver, 21; Capt. McKie, Guelph, 3; Sergt. Morris, Bowmanville, 22; Sergt. Mitchell, Hamilton, 7; Sergt. Russell, Ottawa, 12; Lieut. Rowe, Bowmanville, 4; Pte. Steele, Guelph, 3; Sergt. Steek, Truro, N.S., 10; Gunner Sharpe, Montreal, 5; Lance Corporal Withers, Toronto, 7; Sergt. Bayles, Toronto, 60; Major King, Bowmanville, 8; Lieut. Mortimer, Ottawa, 70; Sergt. Richardson, Victoria, 77; Capt. Stewart, Vancouver, 11.

For the Team

The amount won for the team by each individual was: Private Bibby, 8 pounds; Capt. Crowe, 43; Private Clifford, 8; Lieut. Drysdale, Montreal, 13; Sergt. Eastwood, 23; Capt. Forest, 22; Sergt. Freshorn, 28; Private Latimer, 4; Sergt. Melnes, 8; Capt. McFarlane, 29; Capt. McKie, 19; Sergt. Morris, 62; Sergt. Mitchell, 22; Sergt. Russell, 33; Lieut. Rowe, 8; Private Steele, 97; Sergt. Steek, 36; Gunner Sharpe, 8; Corp. Withers, 24.

Morris is Third

The official list puts Lieut. F. H. Morris, of Bowmanville in third place in the King's prize competition and not in second place as was announced, on Saturday. His prize money is consequently reduced. He got the National Rifle Association medal and forty pounds and the Standard of Empire Cup for the highest aggregate of any overseas teams competing in this match.

CUT BY MOWING MACHINE

Little St. Catharines Girl Suffered Terrible Accident

St. Catharines, July 19.—A horrible accident occurred yesterday by which the four-year-old daughter of J. H. Copeland will probably lose her life. The father was running a mowing machine in the hayfield, when the little one toddled into the tall grass. The knives cutting off one leg just above the ankle and terribly mangled the other.

HUNT "RAT" MISSING LINK

That the missing link in the rat family might be discovered and studied the Carnegie institute recently purchased Gogge Island, in Long Island Sound, and the hunt now is on. It seems that there is a monster sea rodent whose exact position in the rat family has never been ascertained. After several sea rats were caught the heads and brains were taken to the institute and the bodies cast back into the sea.

The next experiment of the institute will be to destroy all signs of vegetation upon the island to a depth of ten inches below the surface, strong acids being used for the purpose. Then with microscopes the creation of life and of vegetation will be studied.

For table use, its crystal purity and wonderfully "fresh" taste make

EDMONTON WINE & SPIRIT CO. Agents

PEACEMAKER IS SHOT AND KILLED

Man, Trying to Prevent Others Fighting, Was Himself Killed

Pittsburg, Pa., July 19.—While reconciling with a group of foreigners who were fighting in front of his home in McKees Rocks during the night, Negro Bonnar, 44 years old who was shot dead by one of the men. Bonnar's wife and five children were witnesses of the slaying and his eleven year old son proved himself a hero by dashing after the flying foreigners, causing the arrest of two of them.

FOUR DEATHS ARE RESULT OF FIRES

Bush Fires Around Nelson, B. C., Are Doing Great Deal of Damage

Nelson, B.C., July 19.—Bush fires, which were believed to be under control, have been blazing with terrible ferocity, causing at least four deaths and enormous damage to property. The most serious loss is reported from the Kaslo district.

The town of Whitewater is blotted off the map. All the buildings at McGuigan have been destroyed. The Lucky Jim, Rambler and other mines have lost buildings. Three hundred miners with their families have lost all their possessions. The Powerlumber camp has been completely destroyed, with timber and cordwood and several valuable teams that were literally roasted alive.

The Great Northern is a severe sufferer. At McGuigan ten freight cars were consumed. Bridges have been burned and at least one hundred thousand dollars worth of timber, belonging to the company, consumed.

The Washington, Utica and Kico mines are reported safe. The dead are: Charles Norman; S. Pierouli of Sandon; George Chisley and David Paterson. Edward Lucas is missing. The dead men took refuge in the tunnel of the Lucky Jim mine, where they were overpowered by smoke. In response to a hurried summons for aid rescue trains were dispatched from Kaslo. They were unable to pass Bear Lake but returned crowded with panic-stricken men, women and children, who are now being cared for by the citizens of Kaslo.

A number are suffering from the effects of the smoke and are in the hospital. The bush fire near Kaslo is still blazing fiercely and other fires are burning at Mirror Lake and in the vicinity of Nelson.

Do Your BUYING by Phone

The following Edmonton Business Houses will be very pleased to receive and execute very promptly all orders by Telephone.

Semi-Steel Fire-Pot—Not Gray Iron

A FIRE-POT of a furnace should be able to endure a tremendous heat and to repel the attacks of sulphur fumes.

The material commonly used for a fire-pot is gray iron. The Sunshine fire-pot is Semi-Steel.

Now, avoiding technical terms, gray iron has what may be called "open" pores. Through these "open" pores the destructive sulphur fumes attack the iron and hasten disintegration.

On the other hand, Semi-Steel is a close-grained material, with a smooth-as-glass surface which practically seals or "closes" up the pores. Semi-Steel easily repels the attacks of gas fumes and thus greatly prolongs the life of the fire-pot.

A Semi-Steel fire-pot weighs 20 per cent. heavier than the same size and pattern in gray iron. It is therefore better able to endure tremendous heat.

Semi-Steel is made by an exclusive McClary process. You can only get a Semi-Steel fire-pot with a McClary furnace. That is one strong reason why you should have

the Sunshine installed in your home. Our agent in your locality will tell you many other reasons. Ask him. Remember, the Sunshine is guaranteed, by the largest makers of furnaces in the Empire, to heat your home to your entire satisfaction.
